Technical Standards for Nursing Students, CNG-100.9

PURPOSE

A candidate for an Associate Degree in Nursing must have the abilities and skills necessary for use of the nursing process. A list of technical standards are provided so that potential students can decide whether or not they may be able to complete the requirements for the nursing program with or without accommodations. In keeping with the Americans with Disabilities Act of 1990, applicants who are unsure if they can perform these technical standards for nurses, or know that they will need help in meeting them, should contact the Dean of Student and Faculty Development who serves as the Disability Services Coordinator, at (315) 801-3078, to discuss the use of accommodations and/or auxiliary aids.

SCOPE

Disabilities Services Coordinator, Students, Faculty, and Staff

St. Elizabeth College of Nursing Curriculum

DEFINITIONS / ABBREVIATIONS

SECON: St. Elizabeth College of Nursing

Technical standards: all of the non-academic requirements a student must have/meet in order to enter a nursing program

PROCEDURE / DIRECTIVE

1. Applicants for admission to SECON will meet for advisement with the President, Dean, or College representative to discuss and answer questions related to the nursing program.
2. The applicant will be given the Technical Standards for Nursing Students to read and ask any questions about the clinical requirements and objectives that must be achieved prior to graduation from the program.
3. The applicant will sign the form indicating that they have read and understand the requirements and have been given opportunity to ask questions.
4. The signed form will be placed in the applicant's file in the Registrar's office.
